SUMMARY

Motivated Full-stack developer, constantly training to improve my skills and help teams build state-of-the-art software solutions. Completed more than 1000 hours of collaboration over the past year, building small projects with JavaScript, Ruby, Rails, React, Node.js, and more, while using remote pair programming with teams of international developers.

EXPERIENCE

MICROVERSE, *Remote*
Mentor (Volunteer), September 2022 – September 2023
- Mentored 4 junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program by completing more than 80 hours of live mentoring.

FREELANCE, *Santiago, Chile*
CMS - LMS Developer, May 2012– August 2021
- Implemented a Moodle LMS platform for a known TV station, scaling the reach of the company's remote training by 40%.
- Implemented an e-store for a client from the women's footwear industry, increasing sales and consumer engagement by 30%.
- Implemented Web site and customer platform for 'Ayaltue Park', a Tourism Center. This helped reach tourists from different parts of the world enhancing their potential sales.

EDUCATION

MICROVERSE, August 2022– August 2023
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

DESAFIO LATAM, February 2022 – July 2022
Full Stack Developer JavaScript Trainee, Bootcamp
- 472 hours of curriculum, mainly focused on: HTML & CSS, Javascript, Bootstrap, Node.js, Express.js, and PostgreSQL.
- Gained the skills necessary to develop dynamic websites, Apps, and SPAs using JavaScript for API requests, CRUD systems, Node.js, and the Express framework to implement the back end while integrating SQL Databases.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, Bootstrap, HTML5, CSS3

Back-End: Node.js, Express.js, Ruby, Rails, MySQL, PostgreSQL

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring

PROJECTS

Skate Park App
- Provides an easy and simple way to sign up for a fictional event. Provides an admin and logged-in view
- Built with Bootstrap | JavaScript | Node.js | Express.js | Express-handlebars

Budget Pal
- A mobile app for keeping track of payments, where users can register, create categories, and add payments to one or more categories.
- Built with: Ruby on Rails | Bulma-css| PostgreSQL | Devise
