SUMMARY

Results-driven Full-Stack Developer with more than two years of experience in crafting innovative software solutions using Ruby on Rails, React, TypeScript, and JavaScript. Committed to continuous learning and teamwork, I strive to leverage technology to deliver high-quality results and support collaborative environments.

EXPERIENCE

MICROVERSE, *Remote*
Junior Software Development Engineer
Jul 2024 - Dec 2025

- Implemented various features for "Leap," a React application designed to facilitate video conferencing and improve users' English speaking skills.
- Developed server-side functionality within a Ruby on Rails framework to support API endpoints for speech processing.
- Created administrative tools for managing user sessions and interactions within the app.
- Implemented different front-end features using modern Rails patterns, like Stimulus and Turbo.
- Used Playwright to add end-to-end tests, using different browser contexts to simulate interaction between two users.
- Implemented services for AI-generated content across the app.

MICROVERSE, *Remote*
Software Developer Intern
Jul 2023 - Jun 2024

- Collaborated with an international team of Senior Developers to build and deploy new features for an LMS platform serving 250+ active users.
- Contributed to the development of a new English-learning product by implementing key features for the initial launch.

FREELANCE, *Santiago, Chile*
WordPress Developer
Jul 2019 - Oct 2019

- Increased client sales and consumer engagement by 30% by developing and launching a custom e-commerce site using WordPress and WooCommerce.

FREELANCE, *Santiago, Chile*
Moodle Developer
Sep 2015 - Jan 2016

- Implemented a Moodle LMS platform for a known TV station, scaling the reach of the company's remote training by 40%.
- The platform served over 100 students.
- The curriculum contained both synchronous and asynchronous content.

SKILLS

Front-End: JavaScript, React, Redux, TypeScript, Bootstrap, Tailwind

Back-End: Node.js, Express.js, Ruby, Rails, PostgreSQL

Tools & Methods: Git, GitHub, Heroku, Mobile/Responsive Development, RSpec, Playwright, Jest

Professional: Remote Pair-Programming, Teamwork, Mentoring

Languages: Spanish (native), English (C1)

EDUCATION

MICROVERSE, August 2022– May 2023

Remote Full Stack Web Development Program, Full-Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
- Selected for an internship from over 300 applicants, showcasing my skills and dedication to the program.
- Successfully transitioned to a Junior Software Engineer role within the company, further solidifying my expertise and commitment to software development.

DESAFIO LATAM, February 2022 – July 2022

Full Stack Developer JavaScript Trainee, Bootcamp

- 472 hours of curriculum, mainly focused on: HTML & CSS, Javascript, Bootstrap, Node.js, Express.js, and PostgreSQL.
- Gained the skills necessary to develop dynamic websites, Apps, and SPAs using JavaScript for API requests, CRUD systems, Node.js, and the Express framework to implement the back end while integrating SQL Databases.
